#### **Description:**

The Chinese government's repression of Uighurs, ethnic Kazakhs, Kyrgyz, and other Muslim minorities in the Xinjiang region of China is extensive and well-documented. The Chinese authorities' tactics include: the suppression of Uighur language and customs, banning Islamic practices, economic discrimination and travel restrictions; and the mass detention of Uighurs in internment or "re-education" camps.

As part of an effort to draw attention to these abuses, the U.S. Department of State will host an interactive webchat featuring a journalist, human rights advocates, and a senior State Department official who have worked extensively on this issue. In this discussion, they will help us understand what is happening in China—and how we can hold the Chinese government to account for its actions.

*The panelists will discuss a number of topics, including:*

- The mass detention of Muslim minorities in Xinjiang.
- Increasing use of surveillance technology.
- Repression of religious and cultural expression.

- Chinese disinformation on the issue.
- How people, organizations, and governments can add their voices and efforts to the international community's condemnation of China's campaign of repression.

The speakers will also answer viewer questions and links to resources will be provided. This Facebook Live webchat will take place on Wednesday, August 7, from 9:00 - 9:45 a.m. EDT at [Facebook.com/StateDRL](https://www.facebook.com/StateDRL).

- The Chinese government has waged an extensive campaign to repress the culture and religion of Uighurs and other Muslim minorities in the Xinjiang region of their country. While this has been widely reported by international media, the world must do more to hold China to account for these human rights abuses.

Join us for a Facebook Live webchat to hear from expert journalists and human rights advocates about what is happening on the ground in Xinjiang. They will discuss China's mass detention of Muslim minorities in sprawling internment camps, the ramping up of high-tech surveillance, and the Chinese government's wide-spread disinformation campaign to cover up what is really taking place in Xinjiang.

Join the conversation and ask the experts your questions by going to [www.Facebook.com/StateDRL](http://www.Facebook.com/StateDRL) on Wednesday, Aug. 7 at 9:00 a.m. EDT (Washington, DC time). #Uighurs #Xinjiang

- On July 16-18<sup>th</sup>, the U.S. Department of State hosted the 2<sup>nd</sup> Ministerial to Advance Religious Freedom, where the United States invited government and civil society leaders from around the world to discuss the current global challenges and threats to religious freedom. Among the many horrific examples we discussed, the Chinese government's systemic repression and detention of more than one million Uighurs and members of other Muslim minority groups in Xinjiang for practicing their faith is among the worst. Unfortunately, much of the world remains unaware of this increasingly bleak reality.

To learn more about the Chinese government's abuse of human rights in Xinjiang—and how people, organizations, and governments can respond to the repression—join a Facebook Live webchat on August 7<sup>th</sup> at 9:00 a.m. EDT. - The Chinese government's use of high-tech surveillance makes everyday life for #Uighurs and other Muslim minorities in #Xinjiang an "open-air prison." Chinese officials forcibly live in Uighur homes, track their every movement, and involuntarily collect DNA samples and biometrics. Learn more about this and other tactics the Chinese authorities are using to repress Muslim minorities during a live webchat featuring expert journalists and human rights advocates.
